OA51C

ARTEMIS 51 COBALT

AUTOMATIC

On a fully polished stainless steel case, the smoked blue dial of the model contrasts with the satin white of its second hand. The eye is drawn to its minimalist moon disk with entirely rhodium-plated stars.

ARTEMIS 51

COBALT

TECHNICAL SPECIFICATION

The model features a stainless steel 316L case that measures 38mm in diameter, 11.1mm in thickness, and is resistant to 5 ATM (50m). It is equipped with the SW288-1a caliber, developed in 2018 in La Chaux-de-Fonds. A flagship of Swiss expertise, the caliber showcases the highest degree of finish offered by Sellita manufactures.
